

Spring is in the air....

Make sure your hound isn't sprung free from safety

With warmer weather, this is the time of year we receive an increased number of calls about loose greyhounds.

Be sure your hound is safe by following these protocols!

- 1) Make sure your hound is wearing a collar with tags containing your current contact information.
- 2) Check your fences for damage, gaps or weak spots.
- 3) Check gates. Make sure they close tightly and have clips or carabiners to keep them shut.
- 4) Check storm & screen doors for appropriate latches.
- 5) Check leashes & collars for condition and make sure they are appropriately adjusted.
- 6) Practice recall in the safety of your home or fenced yard.
- 7) If your hound gets loose, contact GPA-WI for help.
