Introducing the Greyhound Pets of America Featured Dog...

Meet Ash!

Ash is a super-sweet hound who loves nothing more than to curl up on his own dog bed. He is his foster family's favorite foster ever! Unfortunately, Ash has seizures sometimes (but he doesn't mean to!). His seizures are controlled with medication (which cost under \$10/mo.), but they still come occasionally.

Ash is great with cats and is a major snuggler – he just can't get enough love! He enjoys playing outside and running in the yard with his foster brother and sister. He is just a dream hound. Watch out though – he LOVES food and will counter surf!

Ash will do best in a quieter home that has a routine schedule as change and loud noises seem to trigger seizures. He would do best in a home without children. If you have room in your heart and home for this truly special boy, please contact us today!

This pet is up to date with routine shots • This pet has been altered • This pet is housetrained.

Considering a dog? Consider a greyhound!
